

# MOTOR CROSS REFERENCE

The following pages relate A.O. Smith replacement stock numbers to the original equipment numbers of several motor brands. If the part number of the original motor is known, it is a simple matter to look up the stock number of the A.O. Smith motor with which it can be replaced.

Every effort has been made to insure the accuracy of this cross reference guide. A.O. Smith can, however, accept no responsibility for errors, which may be caused by subsequent changes in model numbers or motor specifications. Please refer to the notes which may affect specific replacement applications.

## PLEASE NOTE:

In keeping with A.O. Smiths policy of continuous technological development, current stock motors may vary from those built in the past. Every effort has been made to maintain the interchangeability of models listed in this guide, but construction features and or operating characteristics may have been improved. Always compare motors for interchangeability prior to installing them or recommending them for installation. If you are unsure of the interchangeability of any particular motor, please consult you're A.O. Smith customer service representative.
